

# Running Deer Emotional Curriculum

## Stage 1: Emotions

### Lesson C: Sadness

Review: To what extent has the student met the learning outcomes?

Student Name:

| Learning outcome  | Emerging<br>(just starting) | Developing<br>(almost) | Secure<br>(yes) |
|---|-----------------------------|------------------------|-----------------|
| I can link sadness/low mood to a metaphor                         |                             |                        |                 |
| I can explore that feeling and metaphor in more depth through art |                             |                        |                 |
